NO FERROUS,
The ELEMENT KNOWN AS IRON

IRONCLAY™

**Ferrous Fumarate 300 mg + Vitamin C (Coated) 75 mg +
Folic Acid 1.5 mg + Vitamin B12 15 mcg + Sorbitol 35 mg Capsule**

India's Only Non Constipating Haematinic Capsules

■ DESCRIPTION

Ferrous Fumarate is a medicine used to treat and prevent iron deficiency anemia. Iron helps the body to make healthy red blood cells which carry oxygen around the body. Some things such as blood loss, pregnancy or too little iron in your diet can make your iron supply drop too low, leading to anemia.

Vitamin C, also known as ascorbic acid, has several important functions. These include: helping to protect cells and keeping them healthy, maintaining healthy skin, blood vessels, bones and cartilage.

Folic Acid helps make healthy red blood cells, which carry oxygen around the body. If we do not have enough folic acid, the body can make abnormally large red blood cells that do not work properly. This causes folate deficiency anemia, which can cause tiredness and other symptoms.

Vitamin B12 is a nutrient that helps keep your body's blood and nerve cells healthy and helps make DNA, the genetic material in all of your cells. Vitamin B12 also helps prevent megaloblastic anemia, a blood condition that makes people tired and weak.

Sorbitol is used to relieve occasional constipation and irregularity.

■ INDICATIONS

IRONCLAY is indicated for management of Iron Deficiency Anemia and Anemia of Chronic Disease.

■ KEY FEATURES

- **Ferrous Fumarate** does have more elemental iron in it 33% compare to ferrous sulfonate & ferrous gluconate.
- Every capsule of **IRONCLAY** contains 99 mg of elemental iron.
